

This is the current school.
We can change this reality!

Together we are *Making Education Possible.*

So many children in the Los Salgados community are eager to study. With your help, they can have a safe new school.

Los Salgados School

Project Cost:
\$37,000 USD

Project Breakdown

2 Classrooms: \$34,000
2 Washrooms: \$1000
Classroom Tools: \$2000
(Desks, chairs, whiteboard)

The rural community of Los Salgados is located in northwest Nicaragua. Currently half the students at the school are in kindergarten, and the student population is growing. Classes take place in a structure built out of plywood. This building was constructed by the parents in the community so that their children would not have to walk over an hour to attend school. The school needs to be completely rebuilt to ensure that all the students can learn in a safe environment.

School Statistics:

20 Kindergarten Students
20 Students Grades 1 to 6
2 Teachers

Community Statistics:

4 Children per family
Avg Family Income: \$130/month

A new school will be able to support more students and be better suited to withstand earthquakes and bad weather. Parents are eager to work with SchoolBOX so that their kids can have a proper school. With your support, the dreams of Los Salgados can come true!
